

CLEVER PROTECTIVE COVERS

CREATING A **SAFE WORKING ENVIRONMENT**
FOR THE **RETURN TO WORK**

www.cunninghamcovers.co.uk

SHOP COUNTER PROTECTION SCREENS

Key businesses such as shops and supermarkets are on the frontline of this battle. They are in daily contact with the public as they provide an essential service to us.

Cunningham are able to manufacture and fit clear protective screens that can protect these workers. Our screens are made from a clear PVC and can be mounted onto your counter or joined to any other existing structures. The material is flexible and can be made bespoke to any size or shape of counter.

INDUSTRIAL **DIVIDER SCREENS**

As more and more manufacturers aim to get back up and running during the COVID-19 pandemic, it is essential that social distancing and employee protection measures are in place. That is exactly what our industrial divider screens aim to create a safe working environment for everyone.

Each screen is made bespoke to your company needs and specification. We use a clear heavy duty PVC that will help mitigate the spread of any airborne diseases while also being easy to wipe down and disinfect. Alternative applications may include office & workstation dividers

INDUSTRIAL PROTECTION SCREENS

In industrial settings it can be hard to comply with social distancing measures due to the large machinery and systems in place. Our flexible PVC protection screens can be adapted to fit any manufacturing or industrial space.

Our screens can be fixed to existing fixings or we can manufacture frames to suit. We can also include cut-outs on to allow for moving machine parts etc.

VEHICLE PARTITION PROTECTION SCREENS

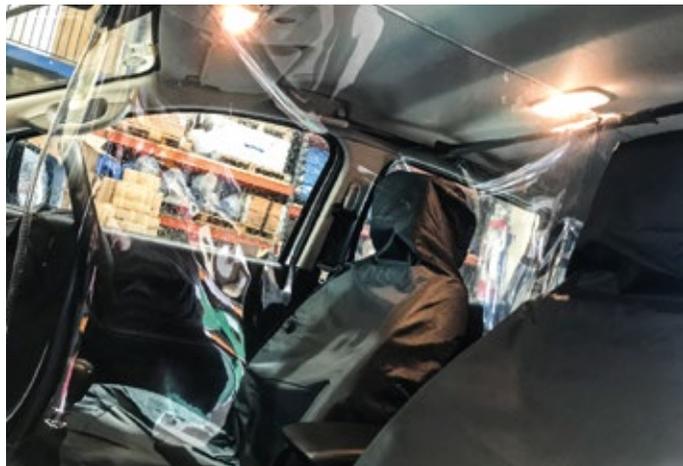

Protect you and your workforce while travelling to and from work with a Cunningham Van Partition. Our product helps to mitigate the spread of disease in your vehicle while travelling to and from your place of work.

Our partitions are flexible and easy to securely fasten making them insurance-friendly, unlike perspex alternatives.

As all our products are made bespoke, we can adapt our partitions to suit any vehicle from a Ford Transit to a Mercedes Sprinter to a Ford Ranger.

KEY BENEFITS

- ✓ Completely bespoke to your vehicle
- ✓ Will not shatter unlike perspex alternatives
- ✓ Vents and hatches can also be installed
- ✓ Helps mitigate the spread of disease
- ✓ Easy to clean and wipe down

OFFICE

DIVIDER SCREENS

It is vital that each member of staff feels safe and secure in the workplace. Within an office environment this can sometimes be difficult. Our clear PVC office dividers can be used to reassure employees working in the office environment.

Our screens can be fixed to existing fixings such as ceilings or we can manufacture frames to suit. We can manufacture your frame to allow the screen to be portable and adjustable. We can also include cut-outs and sign-writing to suit your requirements.
