

## CLEVER **PROTECTIVE** COVERS<sup>®</sup>

**FOD Protection**

**Moisture Protection**

**UV Protection**

**Corrosion Protection**

**Keeping your assets covered**

# on the ground...

**Our training in manufacturing engineering and experience in industrial textiles enables us to constantly look for ground-breaking yet practical solutions for the aerospace industry.**

---

## **Service Manufacturer**

Our capabilities in the design and manufacturing of clever protective covers are the foundation for our success in being a trusted supplier to the MRO and ground support sector.

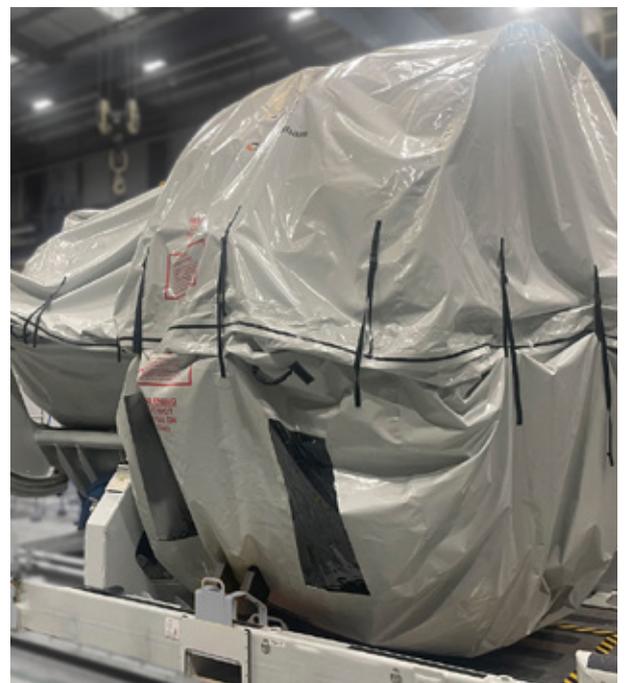

## **Inventors**

Every project we undertake is entirely bespoke, enhancing the vision of the project for which it has been commissioned. Each job benefits from our wealth of expertise and our meticulous attention to detail. We don't make products, we provide solutions that are tailored to suit your specific needs.

## **Engine Protection**

Our moisture vapour protection engine bags are built to protect your high value asset, you don't take chances with this level of complexity. These bags are not an off shelf product, they are made bespoke for any engine or even specialised parts.

Have you a MVP bag requirement? Talk to us to discuss your individual requirements.

## Clever protective covers for MRO and Ground Support

With over 50 years of experience in clever protective covers for industry, our MRO protective cover solutions are vital to a company trying to protect their high value assets, be it in the South Atlantic or the Baltic.

Exporting to over 50 countries we work in all sectors and supply everyone from large multinationals to individuals. We protect high value assets from dust, sand, UV Corrosion, scratching and deterioration, all important for the storage and care of aircraft, engines, spares and associated ground support.

### Capabilities

Investing on a continual basis in R&D we provide a wide range of advanced textile solutions in innovative materials. Our UK purpose built 120,000 sq ft factories employing 85 people allows us to manufacture and brand in-house any bespoke product.

- MVP engine bags
- Engine cowling covers
- Ground support covers
- Turbine blade protectors
- Engine lean mats
- Flight tags
- Cargo containment covers
- Protective transport covers
- Side cover for cargo boxes
- Cart/luggage handling covers
- Stairway bellows
- Safety Nets
- Thermal cargo blankets
